

DE LA SALLE COLLEGE CAREER NEWS FRIDAY, 10 MAY 2013

The Canadian High Commission and the University of British Columbia

are pleased to invite you to an information session on study opportunities in Canada.

This presentation will provide information to students, parents and teachers on study opportunities in Canada as well as specific information on programs and courses available at the University of British Columbia.

The session will be presented by Mary Lou Hayman, Manager of Academic Relations at the High Commission of Canada, and Ahnes Hong, a representative of the University of British Columbia.

Date: Wednesday 5 June 2013

Time: 6.00pm – 7.00pm

Venue: Lauriston Girls School, 38 Huntingtower Road in Armadale

RSVP: <http://www.trybooking.com/CPCI> or <http://www.trybooking.com/45352>

If you are not able to attend the session but would like information on studying in Canada, please contact studyincanada@international.gc.ca

Introducing Open2Study

Open2Study delivers *free*, high-quality education online. Students can study subjects with real value, and in just four weeks they can learn something new, explore the next step in their career, challenge themselves or simply satisfy their curiosity. Each *free* subject lasts just four weeks and students will learn through watching videos and taking quizzes to test their knowledge. Students will also be able to join forces with their classmates in private classroom discussion boards.

What is the difference between Open Universities (OAU) and Open2Study?

While both are online, **Open2Study** offers free four-week subjects whereas OUA provides access to accredited Australian university and TAFE (vocational) qualifications. So if a student is looking for a qualification or some accredited units, OUA is the best place for them. If a student is simply curious about a topic or unsure about which study path to take, **Open2Study** is the way to go.

Topics include -

- ***Becoming Human: Anthropology***
- ***Big Data for Better Performance***
- ***Financial Literacy***
- ***Financial Planning***
- ***Food, Nutrition & Your Health***
- ***Foundations of Psychology***
- ***Introduction to Nursing in Healthcare***
- ***Management for a Competitive Edge***
- ***Principles of Project Management***
- ***Sports and Recreation Management***
- ***Strategic Management***
- ***Teaching Adult Learners***
- ***User Experience for the Web***
- ***Writing for the Web***

Students are encouraged to browse the following link and further explore the courses on offer <https://www.open2study.com/>. The next workshops commence on **Monday 27 May 2013**.

Southern School of Natural Therapies

The **Southern School of Natural Therapies** was established in 1961, so is a very established institution offering courses in *complimentary medicine*. The School prides itself in training students to work alongside other healthcare professionals, rather than providing alternative treatments. The School offers the following courses

- **Bachelor of Health Science – Naturopathy (4 years)**
- **Bachelor of Health Science – Chinese Medicine (4 years)**
- **Bachelor of Health Science – Clinical Myotherapy (4 years)**
- **Introduction to Naturopathy Certificate**
- **Diploma of Remedial Massage**

Graduates of the School are recognised by the same regulatory boards that endorse physiotherapists and chiropractors, e.g. the Health Services Union.

Students keen on finding out more can attend an upcoming Information Session:

Date: Monday 13 May 2013
Time: 5:45pm arrival for a 6.00pm start
Venue: 25 Victoria Street in Fitzroy

RSVP for the session at <http://www.ssnt.edu.au/about/ssnt-events/information-sessions>
Alternatively, visit <http://www.ssnt.edu.au/> to find out more!

UTS Bachelor of Accounting Co-op Scholarship Course

The **UTS Bachelor of Accounting** is a leading business co-op course. High achieving students might like to consider the **Bachelor of Accounting** cooperative education scholarship program, which has been designed to provide students with a multi-skilled accounting degree with strong emphasis on both accounting and financial management, both essential business tools. With twelve months of full-time experience working in the accounting field for some of Australia's largest and most respected firms, and a thorough education in all aspects of business as well as finely honed communication and leadership skills, the opportunities this program offers are highly regarded. All students in the course receive a tax-free scholarship worth over \$46,500, paid out over two and a half years of the degree.

UTS is looking for all-round achievers - applicants who have taken initiative and pursued interests within and outside school, and in doing so demonstrated things like interpersonal skills, dedication and leadership. **A high ATAR is not essential.** Academic ability is just one of the 5 selection criteria, so some successful candidates will be stronger in other areas than on ATAR. Each year UTS takes in applicants whose eventual ATARs fall in the range 85-99.95, so all worthy students who don't expect to reach an ATAR of 95 are recommended to apply. Applications are open and close on Friday 7 June 2013.

Visit <http://www.uts.edu.au/future-students/business/business-study-areas/accounting/bachelor-accounting> to find out more and/or to access the application form.

Accounting Cadetships and Traineeships

Each year, final year secondary students have the opportunity to apply for cadetships with a number of Australian and international accounting firms. **Cadetships and Traineeships** involve working full time for two years at a firm while a student studies their university degree part time. This means that, whilst studying and completing their degree, students get:

- **PAID employment plus assistance with university fees and text books**
- **Invaluable industry work experience plus study leave**

Cadetships and Traineeships are offered to **Year 12 students** who are expecting to undertake a **Business or Commerce Degree**, with accounting as their major.

The program then allows students to complete their degrees on a full-time basis whilst being supported by the company and undertaking vacation employment with the firm.

Cadetships for 2014 are expected to be offered by the following accounting firms and students keen on applying for a cadetship with one or more of these should regularly visit the following links to stay up-to-date with important dates.

KPMG	http://www.kpmg.com/AU/en/careers/Graduates-Students/Cadetships/Pages/default.aspx
PricewaterhouseCoopers *	http://www.pwc.com.au/careers/student/programs/trainee/index.htm
Ernst & Young**	http://www.ey.com/AU/en/Careers/Students/Your-role-here/Students---Programs#fragment-4-na

*Applications have already opened

**Applications open 20 May 2013

Students are also encouraged to visit and browse the following links for excellent resources on careers as a chartered accountant - <http://www.charteredaccountants.com.au/Students/High-school> and <http://www.charteredaccountants.com.au/Students/Whats-on/Event-listing/National-event-info/Cadetships.aspx>

Ernst & Young Information Session

Students keen applying for the Cadet Program at **Ernst & Young**, might like to take up the opportunity of attending an upcoming Information Session.

Date: Tuesday 11 June 2013
Time: 5.30pm – 7.00pm
Venue: 8 Exhibition Street in Melbourne

Please RSVP to MelbourneGraduateRecruitment@au.ey.com by **Wednesday 5 June 2013.**

Bachelor of Health Science at Swinburne University

The **Bachelor of Health Science** is a 3–year degree offered at the Hawthorn campus and was offered for the first time this year. This course explores Australian and international health challenges from a range of perspectives. Students get to choose specialised studies in one of four major areas: **Health Promotion, Nutrition, Psychology, and Sport Science**. Prospective career options on graduating include –

- **Health Promotion graduates** may be employed in jobs such as health promotion officer, community development officer, social planning officer, health educator, women’s health officer, health policy developer, planning officer, and health researcher
- **Nutrition graduates** may be employed in jobs where knowledge of the food industry, food composition, processing and nutrition is required, including food processing industries; government food laboratories; food wholesale and retail industries; government instrumentalities in health, nutrition and agribusiness, product marketing and food quality assurance
- **Psychology graduates** may be employed in jobs including areas of community and mental health, human resource management, policy development, research, welfare, journalism, marketing and advertising. This program provides the first step to becoming a professional psychologist. **This major incorporates the psychology sequence accredited by the Australian Psychology Accreditation Council (APAC).** After completing a degree with a major in psychology, students may apply to undertake a fourth year in psychology and then further study in specialist areas of professional psychology such as counselling, health, clinical, organisational, and sports psychology
- **Sport Science graduates** may be employed in jobs including sports administration, facility management, community health, and sport science, as well as traditional educational roles

The VCE entry requirements are Units 3 and 4—a study score of at least 30 in English (EAL) or at least 25 in any other English and a study score of at least 20 in Mathematics (any). **Visit <http://www.future.swinburne.edu.au/courses/Bachelor-of-Health-Science-H0639/local#overview> to find out more!**
