- Biomedical Science at Monash
- VCE and Careers Expo Caulfield Racecourse
- Succeeding in the VCE Free Lectures for Year 11 and 12 Students

Biomedical Science at Monash

Monash University offers the Bachelor of Biomedical Sciences, a 3-year degree taught at the Clayton Campus. First-year units cover biomedical chemistry, medical biophysics, human neurobiology, and other key areas – setting the foundations of professional development, which will be enriched by second- and third-year units in areas such as human genetics, bioinformatics, and molecular mechanisms of disease. In this interdisciplinary course, students will learn about the science of body systems and the design and use of biomedical data. Students will gain the skills they need to understand and investigate human biology and make a difference to human health in a wide variety of career paths.

As a graduate, students may find work in the hospital and medical sector, including medical diagnostic laboratories; secondary and tertiary teaching; media and communications; and the government sector in such areas as health promotion and health economics. **This is also the preferred undergraduate degree to Graduate Medicine at Monash University.**

News from ADFA

The Australian Defence Force Academy (ADFA) develops and educates the future leaders of the Navy, Army and Air Force. You can see exactly what could be in store for your students with our new ADFA virtual tour. In this immersive experience, you get to see where midshipmen and officer cadets live, study, train and play.

Not only does ADFA offer a fantastic lifestyle, it also provides combined military and leadership training with a world class degree from the University of New South Wales and a guaranteed career in the Navy, Army or Air Force upon graduation.

ADFA offers undergraduate degrees in **Arts, Business, Engineering, Information Technology, Science and Technology.**

Watch the following video - [ADFA Virtual Tour](#) – to see the facilities at ADFA. For more information on what life is really like at ADFA, check out some new videos from staff, midshipmen and officer cadets talking about their experiences - [ADFA Testimonials](#). Another useful link includes [ADF Mentors](#). For more information, visit [ADFA](#).
